Joy SAL67MIC Stoper

Many internal parts in the JOY Stopers are also used in JOY Jacklegs, Long-Tom and Quarry drills.

Highest penetration, and strongest torque available.

Convenient operating controls, with push button leg retraction and adjustable motorcycle control feed

Positive lubrication with good front end blow.

Larger mating faces between major cylinder components for longer life and less wear.

Improved pusher leg with stainless steel piston rod to prevent corrosion and pitting.

Standard with three inch steel leg for increased push and penetration in hard ground.

New style steel puller for collared steel available.

Uses rock drill oil or grease with PHQ lubricator.

The lightest high performance Stoper Drill available

The Stoper of choice for rock bolting at INCO

JOY SAL67MIC Slim Line Stoper

PHQ's JOY Drills have larger mating faces between major cylinder components for reduced air leakage and longer wearing life.

ISO 9001:2000

Certificate: 002485

Features

Large mating faces on components bodies for less wear and longer life

The large 3 ¼ in bore makes the JOY SAL67MIC Stoper the most powerful stoper available on the market today.

The new slim line design and larger bore size make the drill lighter than most other makes of Stoper drills.
